*La Farfalla, is the fantastic dream of a strong and courageous woman who loved life and travel, and who decided one day to build a warm and welcoming residence, in order to accommodate couples, workers, families, with a nice philosophy: receive with joy and love.*

*In this big house surrounded by a lush garden, she created pretty little apartments, tastefully decorated and equipped with great comfort, to allow every guest to feel at home, and to make him want to stay and come back.*

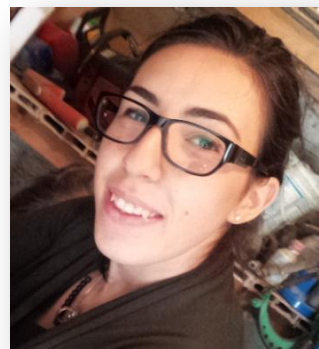

*The attention to details, the tranquility, peace and serenity of our guests, either for one night or for long periods, give our home a true asset, beyond the offered services and the friendly atmosphere.*

*Now, Rosaria Sichetti, had flown in the sky like a colorful and stylish butterfly, but her dream has become real, and we put all our energy to maintain the same spirit and the same commitment to our clients.*

*We hope to have the pleasure to welcome you and to share this corner of paradise at Fossacesia.*

*Rosaria, founder*

*Esmeralda, his daughter, actual boss*
